

ESAB Welding Gloves

Durable Protection for your Hands

All ESAB and Murex gloves have a high resistance to heat and offer additional protection against spatter.

Heavy Duty Black 0467 222 007

A welding glove made of black, strong cow-grain leather. High dexterity with Kevlar® stitching ensures that the glove can resist hard mechanical stress. Fully welted.

Technical Specifications

Heavy Duty Black		
Burning Behavior		Level 4
Contact Heat		Level 1
Connective Heat		Level 3
Radiant Heat		Level X
Small Splash of Molten Metal		Level 3
Dexterity		Level 1
Tear		Level 2
Puncture		Level 3
Cut		Level 1
Abrasion		Level 2

Heavy Duty Aluminized 0700 005 010

A welding glove with two layers of cowhide capable of withstanding extreme heat. Suitable for tubular wire welding. The facing of aluminum coated PFR rayon reflects 95% of the thermal radiation. The glove is padded with CROMOflex and is sewn with fourfold Kevlar®. The thumb is angled for high comfort.

A quality TIG gauntlet with a reinforced thumb and 5.1" long leather cuff. The palm is fully lined for increased comfort and protection.

Unrivalled service and support

Our commitment and ability to deliver the expected service and support starts immediately after the order is confirmed. We strive to offer our customers an After Sales service which is second to none. A strong and skillful service organization is prepared to offer service and maintenance, calibration, validation, and upgrading of equipment and software.

The service organization will offer standardized solutions for the reconditioning or modification of existing products.

Spare and wear parts are manufactured according to ESAB's quality plan. Exchange Printed Circuit Board (PCB), exchange modules, and components are available for all our products in order to reduce downtime to an absolute minimum. ESAB is continuously upgrading authorized service partners for local service support. Customers who have their own service and maintenance personnel will always be offered a service-training package as part of a total ESAB offering. However, product and process training for end-users will form an additional part of the ESAB offering. Always ask your ESAB sales representative or distributor for a complete ESAB solution.
