Introduction

Leading the Industry.

Arcair® has been the first name in arc gouging and cutting products since 1949. Tweco products and processes include air carbon arc gouging & cutting, exothermic cutting (SLICE®) and underwater arc gouging products including torches, outfits, accessories, consumables, carbons, electrodes and other essential products.

Visit our website.

Arcair® has a dynamic website that contains product information, news, downloadable sales and service literature, contact information, a Distributor locator, sales force information, etc. Please visit our website to see what our company has to offer at www.tweco.com.

NOTES:

About Us

Sales

At Arcair®, we work hard to provide the product information, product demonstrations, technical expertise, and service your business expects. Thermadyne District Sales Managers work closely with welding distributors across the country to provide product information, demos and training. When you need product information or want to order our products, contact your local Tweco Authorized Distributor. For a list of distributors in your area, call our Customer Care Center at 1-800-426-1888 or visit us on the web at www.tweco.com.

Literature Requests

Product literature, operating manuals, and service manuals are all available through our distributorships or on our website. You can also order directly through our Copy Center at 1-800-426-1888.

Technical Service

Our Technical Service specialists are some of the most valued and experienced in the industry. Not only can they troubleshoot day-to-day technical issues and provide cutting process expertise, they are also available to conduct sales or service training schools. Contact our Technical Service at 1-800-426-1888.

Service & Repair

Arcair products either meet or exceed industry standards, and are backed by excellent warranties. With certain products, we include an Operating or Instruction Manual which includes basic troubleshooting procedures and parts replacement procedures. Service Manuals are also available by request to service technicians familiar with high voltage, high power electronic equipment. Service Manuals cover complex troubleshooting procedures and include schematics. Your local Distributor may also provide on-site service for the products they sell. To request Service Manuals, contact Arcair Customer Care Center at 1-800-426-1888.

Your local Distributor may also provide on-site service for the products they sell. Additionally, we have a network of authorized independent service centers across the country where you can take your equipment for service. For the service center nearest you, contact the Arcair Customer Care Center at 1-800-426-1888.
